

BALIK – LAB –POWDER MIXER - TURNABLE
TYPE: TSPM – 20

Lab mixing machine to the production of powder mixtures. The mixing container and the mixing tool consist of high-grade stainless steel and fulfil all hygiene requests with that.

The conception of the mixing tool makes the production of homogeneous powder mixtures possible within only few minutes. The drive of the mixer shaft is made by a three-phase motor.

With the hand wheel the mixer is turnable 180°. For filling the mixer is swung into the lower position; the bayonet seal of the mixing container opened; the mixing filled with the components; the bayonet seal closed; the mixer swung over into the upper position and the mixer motor switched on.

For emptying after the mixing time the sequence of operations is carried out in reversed order.

Technical Datas:

Load capacity:	20 Liter
Diameter of bowl:	250 mm
Height of bowl:	400 mm
Revolutions of mixing tool:	1400 rpm
Mixing time :	as required
Connect load:	3 KW, 3 x 400 V, 50 Hz
Width:	700 mm
Depth:	600 mm
Height:	1500 mm
Net weight:	approx. 100 kg
